

Maine Licensed Site Evaluator and Wetland Scientist –

### **Professional Opportunity**

Gartley & Dorsky Engineering & Surveying, Inc is seeking a motivated, team-oriented individual to join our surveying and civil engineering team in beautiful coastal Camden, ME. The ideal candidate will have a BS in an Environmental Science field, be a licensed site evaluator and have 2 or more years of wetland delineation experience. Training can be provided for a candidate with an appropriate background. The successful candidate will join Gartley & Dorsky's multidisciplinary firm, working closely with our team of licensed surveyors and engineers. Primary responsibilities will include a combination of project management, project proposals, and field work. Excellent communication skills and organization are desired, along with an ability to multi-task and manage numerous projects at once. Training provided for a candidate with an appropriate background.

We offer a competitive benefits package including 10 paid holidays, personal time, sick time, health, life, and disability insurance, and 401K plan with employer contributions. Compensation to be commensurate with experience and ability.

### **About Us**

Gartley & Dorsky is an engineering and surveying firm located in Camden and Damariscotta serving the residents, municipalities, and businesses of Maine. We provide civil and structural engineering, permitting and soil services, and all aspects of surveying on large and small projects across the state. Our projects range from small (residential additions and septic designs) to the large (ALTA surveys and full-service site planning on subdivisions and commercial development). Celebrating 20 years and awarded small business of the year in 2019 by the Penobscot Bay Chamber of Commerce, we strive to provide each client with great service and cost-effective solutions.
