LD 1246: An Act to Include Endangered & Threatened Species Habitat in the Definition of "Significant Wildlife Habitat" Under the NRPA [w/ proposed amendment]

38 MRS §480-B Definitions

- 10. Significant Wildlife Habitat "Significant wildlife habitat" means:
- A. The following areas to the extent that they have been mapped by the Department of Inland Fisheries and Wildlife or are within any other protected natural resource: habitat, as defined by the Department of Inland Fisheries and Wildlife, for species appearing on the official state or federal list of endangered or threatened animal species; high and moderate value deer wintering areas and travel corridors as defined by the Department of Inland Fisheries and Wildlife; seabird nesting islands as defined by the Department of Inland Fisheries and Wildlife; and critical spawning and nursery areas for Atlantic salmon as defined by the Department of Marine Resources; and
- B. Except for solely forest management activities, for which "significant wildlife habitat" is as defined and mapped in accordance with section 480-I by the Department of Inland Fisheries and Wildlife, the following areas that are defined by the Department of Inland Fisheries and Wildlife and are in conformance with criteria adopted by the Department of Environmental Protection or are within any other protected natural resource:
- (1) Significant vernal pool habitat;
- (2) High and moderate value waterfowl and wading bird habitat, including nesting and feeding areas; and
- (3) Shorebird nesting, feeding and staging areas.; and
- (4) Habitat for state endangered and state threatened species listed under Title 12, section 12803, subsection 3 when the habitat is located within another protected natural resource or when any portion of the habitat is contained within the boundaries of a project site that requires approval from:
 - (a) The department pursuant to Title 38, Chapter 3, Articles 5-A, 6, 7 and 8-A, except for activities or development taking place on a residential lot that is not part of a proposed multi-lot housing development; or, (b) The Land Use Planning Commission pursuant to Title 38, Chapter 3, Article 5-A or Title 12, Chapter 206-A for subdivisions and non-residential uses.

Scenario 1:

Stream crossing and wetland impact (>4300 sf) – NRPA permit

E&T off-site

NO IFW contact by DEP/LUPC

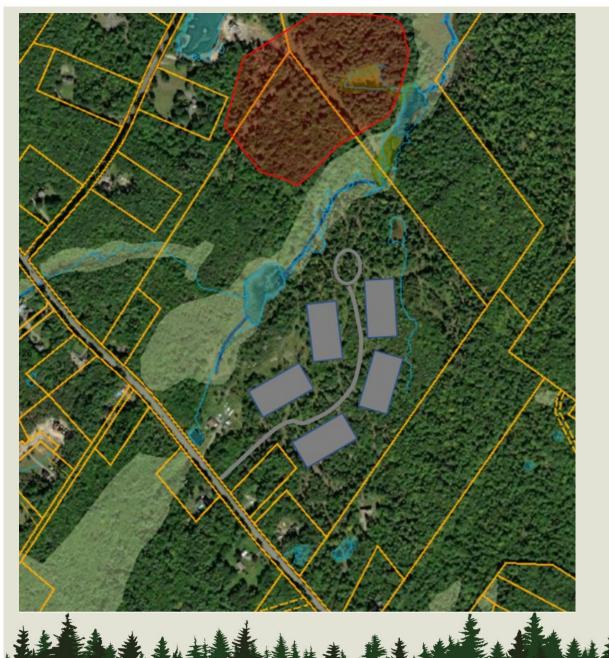

Scenario 3:

Wetland impact (>4,300 sf) and stream crossing – NRPA permit

E&T close but not *directly* impacted.

NO IFW contact by DEP (LUPC already contacts IFW)

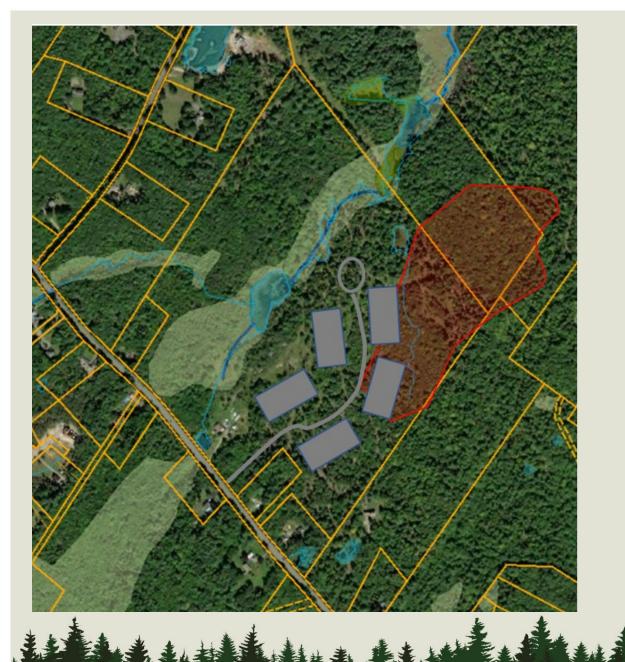

Scenario 2:

No agency permit (except maybe stormwater)

E&T on site but not impacted

NO IFW contact by DEP (LUPC already contacts IFW)

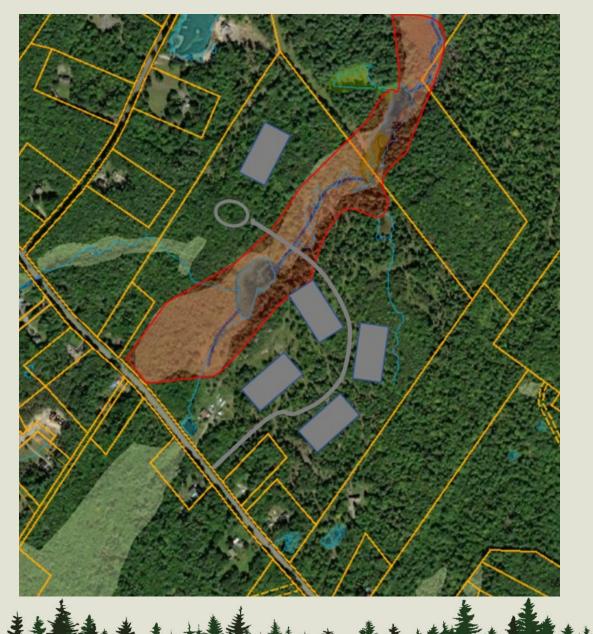

Scenario 4:

No agency permit (except maybe stormwater)

Development impacts to ET

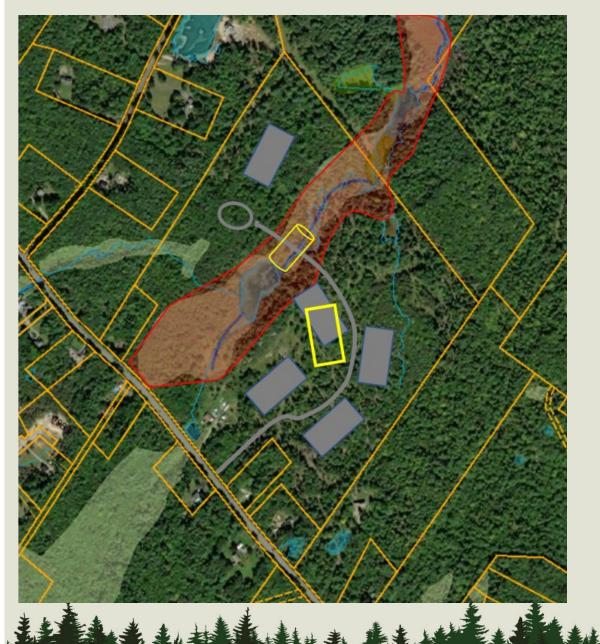

NO IFW contact by DEP (LUPC already contacts IFW)

Scenario 5:

Stream crossing, and wetland impact (>4300 sf) – NRPA permit

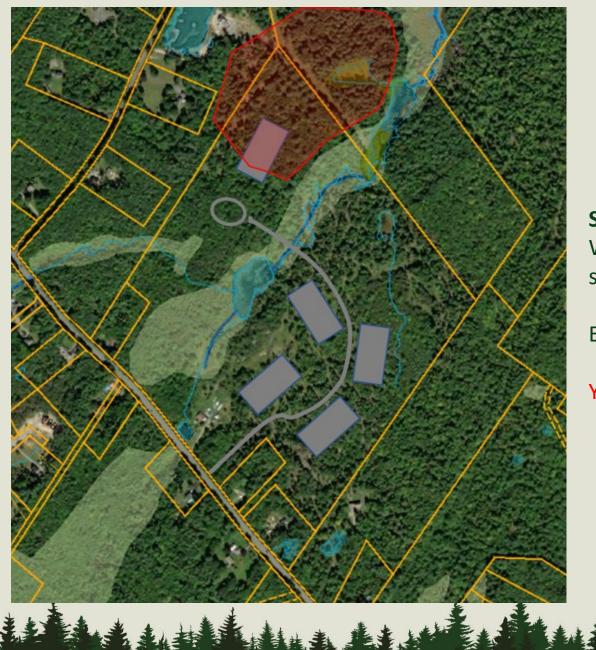

E&T occurs in wetland & stream (wetland = WOSS)

Scenario 5:

Stream crossing, and wetland impact (>4300 sf) – NRPA permit

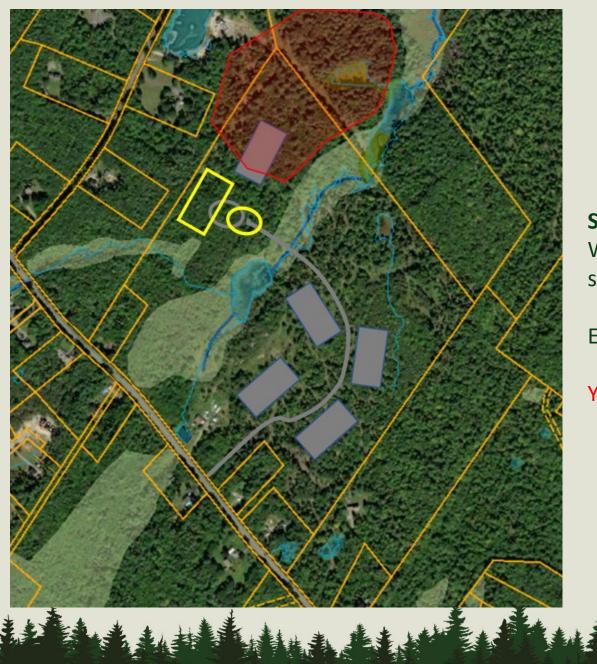

E&T occurs in wetland & stream (wetland = WOSS)

Scenario 6:

Wetland impact (>4300 sf), stream crossing – NRPA permit

E&T in upland and impacted

Scenario 6:

Wetland impact (>4300 sf), stream crossing

E&T in upland and impacted
